### Casino Heist

Group Size: 20 to 200

Duration: 90 minutes

This ballroom-escape style puzzle game is a fast-paced adventure for medium to large groups. We bring the action to you at the indoor location of your choice, such as a ballroom or large conference room. The group is split into teams of 5 or 6 players each before the game begins. The Casino Heist game includes familiar puzzle styles, wordplay, logic and hidden information. A successful Heist requires organization, teamwork, quick thinking and attention to detail. How many teams are clever enough to break into the casino's vault and escape undetected before time runs out?

### Shinteki Scramble

Group Size: 6 to 300

Duration: 2 hours

Our most popular corporate offering is the Shinteki Scramble. A great introductory option, this is an exciting puzzle competition for small or large groups. The Shinteki Scramble showcases familiar and original puzzle styles, encrypted messages, local trivia, and much more. Players work together in small teams (generally 3 or 4 players), racing to solve fun puzzles and discover interesting locations while exploring their surroundings on foot. Everyone meets up at the finish, a local pub or restaurant, to share experiences and compare results. This is a fast-paced, energizing excursion!
